3.0

WORLDWIDE

JUNE 25 - 27

ABOUT

Def Hacks is a certified 501 (c) (3) non-profit hackathon made by and for students. In the past, Def Hacks has hosted 15+ hackathons in various locations around the world. This past June, Def Hacks hosted a global hackathon that attracted 1,300+ students from 54 countries, also brought speakers such as Tom Preston-Werner (tech billionaire, former CEO/Co-Founder of Github), Ge Wang (award-winning Stanford professor), and Amjad Masad (Repl.it CEO, founding dev of React Native) The projects created at DefHacks represent the innovations and skills of the up and coming generation of computer scientists.

SPONSORING BENEFITS

DefHacks is the perfect opportunity for companies to interact with the next generation of software developers. DefHacks sponsors will foster relationships with hundreds of highly motivated members in the hacking community. This innovative event is an excellent place to evaluate the design, development, and collaboration skills of qualified internship and job candidates. In addition, sponsors can promote their company by demonstrating their APIs and products, holding workshops guiding students in the use of their technologies, giving technical talks, and by distributing swag.

Additionally, here are some other perks of being a sponsor:

- Providing prompts that will facilitate the development of innovative solutions to your problem
- Access numerous resumes, email addresses, and LinkedIn profiles
- Showcase your workplace culture by sponsoring swag, games, and/or shipping snack boxes to hackers
- Recognized on the DefHacks website and the opening and closing ceremonies And most importantly, support the future generation of developers!

We strive to connect mission-driven organizations like yours with ambitious hackers to foster creativity and innovations. We cannot wait for you to be a part of the Def Hacks | Worldwide 3.0 hackathon!

Thank you so much!

The Def Hacks | Worldwide 3.0 Team

PAST DEFHACKS EVENT

As DefHacks grows, we are working to expand into new territories, providing the tools for passionate students to explore their interests.

Over the years, DefHacks has hosted in-person events in the following places around the world:
